INTRODUCTION: RECREATION OVERVIEW

The Pemberton area, when compared to other BC communities of similar size, appears to be lacking in recreation facilities that support the overall health and wellness of local residents. During the past two decades there has been increased community pressure to plan for additional recreation amenities to serve the greater community with specific

focus on an indoor pool, ice rink, gymnasium and playing fields. Although more recently both the Pemberton Valley Utility Service Committee (a joint recreation function of the Village of Pemberton and Electoral Area C of the

Squamish-Lillooet Regional District) and Lil'wat Nation (Mount Currie) have significantly enhanced the quality and opportunities for indoor and outdoor recreation, there is a continued desire to better understand the existing recreational environment in each community, and then determine whether Pemberton, Area C and Lil'wat can work

together and deliver the needed facilities.

The purpose of the Pemberton Recreation
Overview is to compile information about the greater community's existing recreational offerings as well as to understand the area's current social and economic environment. For the purposes of this report the study area comprises the jurisdictions of the Village of Pemberton, SLRD

Electoral Area C and Lil'wat Nation (Mount Currie Band).

The overview is organized in four main sections. The first section considers the character of governing organizations in the study area, which includes decision making, financial considerations and existing strategic and land use plans and recreation master plans. The second section outlines the existing conditions for recreation considering municipal and Band facilities as well as other facilities used by the local

community. The third section provides an overview of the community, touching on key socio-economic indicators, existing recreation groups and interests and trends. The final section provides an overview of the key findings of the overview.

PART 1: RECREATION GOVERNANCE IN THE PEMBERTON AREA

1.1 Decision Making

The communities of Pemberton, Area C (SLRD) and Mount Currie share a proximal land base yet each operate under a different governance structure. The Village of Pemberton is responsible to the provincial government in accordance with the *Community Charter* and the *Local Government Act*. The Squamish-Lillooet Regional District is a regional government that is responsible to the provincial government through the *Local Government Act* but also encompasses the Village of Pemberton, the District of Squamish, the Resort Municipality of Whistler, District of Lillooet and four Electoral Areas. Electoral Area C surrounds Pemberton, situated north of Whistler and west of Lillooet in the Lillooet River drainage. The Village of Pemberton and Area C have several shared services, which includes recreation.

Lil'wat Nation is governed by an elected structure that holds a two year term of office. The elected government consists of one Chief and twelve councillors. The Chief is the respected leader and spokesperson for the Council and the Lil'wat people. Though the Lil'wat Nation is a recognized government by their own right they are also recognized and incorporated as the Mount Currie Indian Band within the Canadian federal structure. The Lil'wat Chief and Council have a legal duty to their citizens that are recognized within a community membership code and, upon being elected, also swear an oath to protect the lands and assets of the Lil'wat Nation.

The Chief and Council set the overall direction and establish the policies for of the Nation's administration which is comprised of but is not limited to: Administration, Finance, Land and Resources, Education (pre-school to post-secondary), Housing, Fisheries, Community Wellness, Health and Recreation, Social Development, External Affairs, Economic Development, and Culture/Heritage.

The following outlines the decision making structure for the Village of Pemberton and Squamish-Lillooet Regional District/Electoral Area C; and the Lil'wat Nation specifically considering the decision making and administrative structure of recreation services.

.1 Village of Pemberton and Squamish Lillooet Regional District/Electoral Area C

Pemberton Valley Utilities and Services Committee - The Village of Pemberton and Area C of the SLRD have established the Pemberton Valley Utilities and Services

(formerly Pemberton/Area C Joint Services) as a committee of the Squamish-Lillooet Regional District Board convened by the Board to discuss shared services between SLRD Electoral Area C and the Village of Pemberton. The recreation service offered through this governance structure makes recommendations which are in turn forwarded to the Board for endorsement (with the exception of purchasing authority for the Pemberton Community Centre, which the Board has delegated to their CAO). The membership of Pemberton Valley Utility Service Committee (PVUS) includes the SLRD Director from Village of Pemberton, Alternate SLRD Director from Village of Pemberton, SLRD Area C Director and SLRD Alternate Area C Director. The Village of Pemberton does not have a standalone recreation function; however, responsibilities sometimes overlap in terms of parks, trails, finance, planning and development.

Recreation Staff – PVUS's Recreation Department is staffed through the Squamish-Lillooet Regional District. Village staff is not recognized in the PVUS governance structure, although they partake in recreation planning and development serving Village interests such as the new development projects, skate and bike parks, as well as parks and open spaces planning, maintenance, licencing and improvements.

Recreation Advisory Committee - The Pemberton Recreation Advisory Committee consists of a minimum of five (5) and a maximum of nine (9) members appointed by PVUS, selected from recreation user groups and the public at large. The purpose of the Committee is to provide comments and recommendations on recreational issues referred to by PVUS within the Village of Pemberton, Electoral Area C and Mount Currie. Matters considered relevant include recreation policy, parks, open spaces and recreational facility considerations, input on activities and programming as well as major recreational development proposals. Further, the focus of the advice and recommendations to PVUS includes: recreation activities and programs; education of the public regarding leisure, philosophy or recreation policies; promotion and encouragement of leadership training workshops; clinics in sports, arts and crafts, music, drama, leadership techniques and qualities, administration, conferences and other related fields; special events, community days and festivals; and planning of active parks, passive parks, playgrounds and open spaces which include trails. The Committee serves without remuneration on two year, staggered terms.

.2 Lil'wat Nation

Recreation Staffing - A full time Recreation Manager and part time program workers and volunteers organize the recreation programs in conjunction with the school, the cultural centre and the community. Mount Currie also has a Capital Projects and Infrastructure Manager that is coordinating the development of numerous recreational facilities and fields.

Recreation Advisory Committee - The Recreation Advisory Committee's Terms of Reference indicate that its purpose is to promote sports, arts and other recreation activities in the community and to provide advice to the Director of Recreation and the Band Council on recreation related matters. The LRAC is to achieve it's purpose by recommending policies, programs and services intended to meet the leisure needs of sports, arts and recreation activities for the community of Mount Currie/Xit'oclaw.

The committee is comprised of seven (7) community members and one (1) councillor, appointed by Chief and Council with one representative from each of the following interests: seniors, youth, adult, indoor sports, field user groups, arts/culture, and school administration.

1.2 Financial Considerations

One of the most significant challenges in delivering recreation facilities for the community is the funding of a facility both in its capital and ongoing operations. The following outlines the financial resources within the current government structures.

.1 PVUS Recreation Service

The recreation service is funded through the SLRD's requisition of taxpayers in Electoral Area C and the Village of Pemberton. There are individual bylaws for each shared service where the requisition amounts are based on assessments for the relevant contribution areas. There is a service bylaw for the Community Centre, the Meadows Facility (recently demolished although one full size and two junior soccer fields remain), 2 baseball diamonds and worn track and the Youth Centre. The 2012 draft Financial Plan identified the following revenue sources: Pemberton Recreation Commission (\$40,000) and the Pemberton Valley Recreation Trail (\$50,000), with Village of Pemberton (\$457,259) and Area C (\$487,717) taxation as well as grants, user fees and other contributions.

.2 Village of Pemberton

The Village provides funding for community park maintenance and other park activity which has an annual budget of approximately \$100,000 that is in addition to the recreation service contributions. The Village has used general taxation to provide matching funds for senior government capital grants, facility maintenance, loan repayment and for costs of smaller standalone projects.

In 2008, the Village established the Community Amenity Contribution, whereby new residential development is required to contribute cash to new recreation amenities for the community (implemented through amenity zoning provisions of the *Local Government Act*). The contribution is based on \$9020 per single family lot/unit and \$6110 per multifamily unit. In 2010, Council resolved to allow certain "on-site amenity development" in lieu of the cash contribution. To date two significant developments have committed certain amenity contributions, however, Tiyata (BCR/Signal Hill) is providing "in lieu" on site amenities, while Sunstone (Ravens Crest) has allocated approximately \$1.8 million towards recreation (subject to possible on-site contributions) over the life of the projects' build out. At this time the commitment has been secured through agreement, but not yet fulfilled.

The Village also has the ability to allocate monies to recreation through general taxation revenues (which is done through the SLRD/PVUS) requisition, user charges, senior government transfers (i.e. grants), and Development Cost Charges (parks acquisition and improvement only). The Village also has limited borrowing capacity which is calculated on the prior year's revenues (specifically taxes) less debt costs. This capacity increases as our overall assessment rises (i.e. boundary extensions expand assessment values). Currently all of the Village's borrowing is in the early stages of repayment and are for significant terms ranging from 9 to 25 years and amounts between \$650 thousand to \$2.1 million. The Village must be careful on any future borrowing in regards to terms, specifically large sums as this will impact funds required for future projects and/or emergencies. At this time the existing DCC Bylaw does not include park improvements, but is being considered in a forthcoming amendment.

.3 SLRD/Area C Service Areas

In addition, the 2012 SLRD Financial Plan recognizes three additional sources of recreational funding (typically referred to as "select funds") for facilities and/or parks realized from contributions from the Wedgewood development, Miller Creek

Power and Rutherford Power. The following outlines the 2012 budget for and terms of these funds:

Wedgewood - The Wedgewood amenity zoning identified the terms of the contributions as an initial monetary contribution of \$2,490,000 to the SLRD's Electoral Area C Recreational Facilities Reserve Fund and a monetary contribution of \$350,000 to the SLRD's Park Reserve Fund

Miller Creek Power - Miller Creek Power Amenity Agreement (July 31, 2000) provided money as an amenity for the Board of the District (SLRD) to provide community services within Electoral Area C of the District at the sole discretion of the SLRD Board. The amount payable was \$40,000 per annum (without interest commencing) in the first year in which the project sells, distributes or transmits electricity. There was an initial payment of \$80,000 for the first two years from the date of the agreement (2000).

Rutherford Creek Power - Rutherford Community Benefits Agreement (June 18, 2001) assisted in the payment of the District's costs in connection with the cost for the approval process of the project and the review of agreements in connection with the project and funding of certain community amenities. The amenity payments were \$40,000 per year. The Escrow Funds were \$200,000 for the Community Benefits Fund and \$50,000 for the Administrative Fund. The monies received by the District on account of the Community Benefits Fund shall only be used by the District for recreational infrastructure (such as parks and playfield development or other recreational services) or operations, maintenance and administration for the benefit of Electoral Area C, provided that not less than half of the funds be used by the District for capital works. All monies received by the District from the Amenity Fund shall be used for services within Area C of the District.

As with the Village, the SLRD also has the ability to borrow. At this time the partners are currently paying back a \$6.2 million for the community centre construction.

.4 Lil'wat Nation

The Lil'wat Nation has previously applied for funding from a number of different entities, including the Province of BC, the Government of Canada (Western Economic Diversification Fund) and Health Canada to fund recreational

activities. In the future, Lil'wat Nation will fund recreation programs through a blend of own source revenues, grants, internal operations and income generated from its business corporations. Through a settlement agreement with BC Hydro, investments were made in a number of projects, including 2 soccer fields and a dedicated softball diamond. Maintenance of playing fields will continue to be funded internally.

1.3 Strategic and Land Use Plans

The following provides an overview of applicable strategies, plans and/or actions related to the provision of facilities to meet the recreation needs of the Pemberton area. The purpose of this review is to highlight the organizational plans and policies of the three government bodies as well as the shared Winds of Change initiative.

.1 Village of Pemberton

The Village of Pemberton has recognized recreation as a key priority through their plans and policies, notably including the Strategic Plan (Annual Report) and the Official Community Plan. The Strategic Plan has identified several policy directions under the Themes of "Good Governance" and "Social Responsibility":

- Negotiate terms for the transfer of land for the purpose of providing future recreation opportunities.
- Engage regional partners and Pemberton residents to review recreational services and assess the greater communities future needs.
- Complete a Recreation Asset Inventory Review for the greater Pemberton area.
- Work with Lil'wat Nation and Area C to advance a joint recreation master plan.
- Actively seek community input on recreation revisioning and implementation.
- Support the Winds of Change Program.

The 2012 Work Program (which is in line with budget allocations) includes the following initiatives:

- Work with the SLRD, School District 48 and user groups to develop a centralized multi-use sports field park.
- Continue to seek funding opportunities for ongoing implementation of the Winds of Change Strategic Plan.
- Update the community Recreation Master Plan including governance decisions, facilities locations and the community needs.

- Ensure that future governance decisions identify the expectations and ongoing costs to local government administration, operations and works.
- Facilitate discussions with the SLRD and Lil'wat Nation with regard to combining available resources to expand on the recreational offerings of the entire valley.
- Develop an acquisition plan to acquire lands identified for future community facilities.

The Strategic Plan has drawn on the policies of the Official Community Plan which set the direction for recreation as: *Community facilities shall be within our fiscal means and accommodates resident's needs for lifelong learning and leisure Community Facilities and Parks.* Directly related policies include:

- Accommodate the lifecycle needs of residents of all ages and abilities.
- Provide safe, accessible and convenient facilities for artistic, cultural, academic, leisure and recreational expression, activities and learning.
- Continually enhance the offerings and opportunities of both indoor and outdoor facilities catering to all seasons.
- Balance the provision of amenities with the community's fiscal resources and capacity.
- Encourage the development, integration and shared community use of publicly accessible facilities.
- Coordinate the resources of the Village, Regional District and Lil'wat.
- Maximize the opportunity of recreation services and facilities for the area.
- Enhance and expand existing community amenities to meet growing and evolving needs.

The Official Community Plan also identified Community Amenity Priorities which are intended to assist in the allocation of contributions made when amenity zoning is used for new development. The following amenities were identified by the community through the OCP process as being recreation priorities to allocate resources with new development projects:

- Top Priorities: Arena, Indoor Pool, Public Washrooms, Parks, and Trails.
- Medium Priorities: Curling Rink, Performing Arts Stage, Outdoor Pool, and Regulation indoor gym.
- Other Amenities: Outdoor skating rink, Squash/racquet ball, Track, Indoor tennis, Equestrian stadium and Clubhouses at playing fields.

Map F of the Official Community Plan indicates the locations of the existing facilities as well as future sites that have been previously identified in the Master

Plans, the OCP public consultation, the Pemberton Valley Utilities Service and the Recreation Advisory Committee.

.2 Squamish Lillooet Regional District (Area C)

The SLRD has adopted certain high level objections and priorities for 2012. Objectives pertinent to Area C recreation are articulated through PVUS budget on an annual basis. The two fundament lands use plans applicable to SLRD/Area C are: the Regional Growth Strategy (also applies to Village of Pemberton); and the Area C Official Community Plan.

The Regional Growth Strategy is legislated under the *Local Government Act* to "promote human settlement that is socially, economically, and environmentally healthy and that makes efficient use of public facilities and services, land and other resources." The Regional Growth Strategy sets a common direction for the SLRD and member municipalities to ensure that future development will be sustainable, recognizing a long term responsibility for the quality of life for future generations.

In reviewing the strategy, specific to recreation there is a key goal to "create healthy and safe communities" with a specific policy of "Promoting high quality (level, range and appropriateness) health, social, cultural, educational, recreational, and commercial services to meet the needs of people of various ages, abilities, and income levels".

The Area C Official Community Plan contains more specific references to recreation within the land use policies. The policies and land use designations include:

- Special Planning Area for the Hillside area should provide for community facilities such as school, fire hall, and recreation facilities to meet the social and cultural needs of the community.
- The Regional District shall work with the Village of Pemberton, Lil'wat
 Nation and community organizations to determine the community and
 recreational facilities needed by area residents and to determine possible
 funding sources.
- Most of the public facilities for the Pemberton area are located within the Village and that direction will continue alternative non-agricultural sites should be considered when recreational, institutional, industrial, commercial uses or utility facilities are proposed for agricultural areas.

- The Regional District encourages School District No. 48 to permit the use of existing and future school facilities for recreational and community purposes.
- The Regional District supports the development of a Parks and Recreation Master Plan for Area C to determine the type of parks and recreation facilities required the best location for these facilities, and the means of acquiring them.
- The Regional District shall continue to work with the Village of Pemberton, Lil'wat Nation, provincial agencies, local community groups, land owners, and others as appropriate in the identification and development of parks and recreational access.

.3 Lilwat Nation

The Lil'wat Nation has developed a strategic plan as an act of self-determination and sets a course of action that is reflective of the needs and vision of the Lil'wat Nation. The Strategic Plan was prepared by and for the Lil'wat Nation.

Objective #9 of the Lil'wat Nation Strategic Plan states "Lil'wat7ul living a healthy lifestyle", which includes the related strategies of increasing the number of Líl'wat participating in physical exercise and recreation programs, creating new programs and increasing elder and youth participation in all activities. Recreation and healthy lifestyles are supported by the community, the senior leadership of the Nation and by its Chief and Council.

.4 Winds of Change

In 2003, the Mount Currie Band Council and the Village of Pemberton Council formed a Joint Task Force to increase the safety in the communities by reducing the harm associated with drugs and alcohol. The Winds of Change report was the deliverable for the Task Force which included 13 recommendations for action and change in dealing with drug and alcohol use and harm. A key observation of the report was that the communities were both growing rapidly and have a very high percentage of young families and children with an increasing need for amenities for recreation and healthy leisure activities. One of the recommendations was as follows:

"The Councils in both Pemberton and Mount Currie make an effort to maximize the development of recreational and leisure infrastructure. Specific projects might include:

- Skate park;
- Sport development and training facilities and opportunity;
- Shared recreation centre;
- Shared senior activity centre; and,
- Promote safe non-motorized travel for pedestrians between
 Pemberton and Mount Currie (e.g. Pemberton to Mount Currie Trail).

"Community amenities are not just bricks and mortar type facilities like a recreation complex. There are also many other soft recreation assets that could be developed for Pemberton and Mount Currie residents.

All of these things share one thing in common – they give opportunity for making a healthy lifestyle choice.

We strongly believe that our investments in promoting healthy lifestyle choices will have productive outcomes that reduce harm associated with drug and alcohol misuse".

1.4 Recreation Master Plans

.1 SLRD and Village of Pemberton

The Village or the Regional District does not have a current strategic plan for the enhancement and development of community facilities. At this time local recreation planning is informed by at least two renditions of Community Recreation Service Master Plan dated 1999 and 2005. The following outlines the directions of these documents and provides additional input towards the development of a strategy specific to community facility plan for Pemberton.

Pemberton and District Recreation Master Plan 1999 - The 1999 Plan was intended to be a five year guide for development of recreation services and facilities. Effectively the plan recognized that the community's expectations for facilities were significantly greater than their financial resources available and willingness to pay as per the concepts presented. The plan clearly indicates that the community wants a multi-functioning recreation program to include facilities, fields and green spaces.

The 1999 Master Plan formulated a strategy for recreation facilities, parks and open spaces within the Pemberton area. In particular, some of the major

directions recognized in the implementation plan (related for facilities rather than parks and open spaces) included:

- Maximize local resources and facilities through volunteers, non-profit groups, sports organizations, schools, neighbouring municipalities and other private interests and businesses (sponsorship, eventing, etc.); and
- Develop a community facility that is based on the accepted increase in taxes of \$150 per household.

Joint Service of the Village of Pemberton and the Squamish Lillooet Regional District Master Plan Update, 2005 - The 2005 Plan's identified major community recreation facility needs related to the short and long term provision of services for residents living in the Village of Pemberton and Electoral Area "C" (SLRD). In particular, the Plan addressed three primary areas of interest all related to the issue of a major community recreation facility as the scope, functions, capital and operating costs and locations of a facility (community centre and/ or arena and/or pool as a replacement for the Pemberton Meadows Road facility). The study recommended: a community centre be designed for an active recreation purpose located on Lot 15 and that it include the library; the existing Meadows Community Centre be closed; and that community use agreements be made with local public schools for active sports. The report also recommended that the building of the community centre anticipate a future building phase of an arena on the same lot.

.2 Lil'wat Nation

In March 2006, the Lil'wat Nation prepared a Recreation Strategic Plan (Gary Young Associates) which provided a comprehensive report on recreation facilities and programs. The planning exercise involved extensive engagement of the Mount Currie community considering a range of recreation considerations, specifically: programming and activities; arts; sports; fees/charges; financial assistance; marketing and promotion; indoor facilities; outdoor facilities; future facilities; departmental considerations; transportation; staffing; software; governance; and budgets. The report includes a long list of recommendations considering all aspects of recreation and leisure to assist the Chief and Council to implement an effective organizational structure and service plan which maximizes the resources allocated to parks and recreation and cultural services. A number of these recommendations have been carried out and are considered complete, see below:

- Staff, working with volunteer sport leaders, should establish a core sport system with continuous program from age five through adulthood, i.e. soccer, baseball, lacrosse, floor hockey and basketball.
- That the Recreation Advisory Committee be directed to establish a fees and charges policy intended to recover direct costs.
- That a detailed renovation plan of the IR10 gymnasium be completed in keeping with the engineers' report (Ullus - complete)
- Operate the old village soccer complex until new fields are built and then phase them out or reduce the use to a practice and tournament facility (in progress)
- Rebuild the IR10 Community Centre Playing field to a sand turf standard with good drainage and install two infields and backstops on the two corners of the field (in progress).
- That the small school field be improved in the short term and rebuilt in the longer term to accommodate two baseball diamonds and one quality soccer field. (in progress)
- That a new concrete pad is installed near the school to support the skate park ramps and that the box hockey floor is repaired.
- That no action to build an ice rink or a swimming pool is taken at this time and that the provision of either an ice rink or a swimming pool only is contemplated in partnership with a significant development that will provide sufficient funding to build and subsidize the operation of such a facility.

The report also explicitly discusses the need for an ice rink and swimming pool for the community as they were very high priority in community consultation. At the time of the report, Whistler was planning a second sheet of ice (as part of the Olympic legacy but it was not realized) that would reduce demand for more ice in the region. Regardless, the report indicated that perhaps that a real estate development could be tied into the capital development of the rink and pool as was realized by the Tsleil-Wututh Nation (once the population of the entire valley population is approximately 15,000).

PART 2: EXISTING CONDITIONS

2.1 Inventory of Existing Facilities

A detailed inventory of the current recreational facilities in the Pemberton area is attached as Appendix A. This section highlights the key findings:

- There are two significant indoor recreation complexes in the Pemberton area: the Cottonwood Community Centre (Village) and the Ullus Community Complex (Mount Currie).
 - The Cottonwood facility provides a great hall/ (not a regulation sized basketball court), meeting rooms (2), yoga room, fitness centre, shower, library and a (almost completed) community kitchen. This is a public facility owned by the SLRD and the Village and operated by the Pemberton Valley Utility Service Committee.
 - The Ullus Community Complex provides a regulation gym, fitness centre, meeting room, projection capabilities, elders meeting place and a kitchen. Although available for public bookings, priority is given to Lil'wat people.
- In the Village provides there are also active outdoor facilities including a tennis courts (2), One Mile Lake beach and boathouse (operated by the Canoe Club), playgrounds (4), waterpark, skatepark and BMX/bike pump park.
 - Paddling (with the associated facilities) and the skateboard park are the most popular and heavily utilized outdoor facilities whereby their seasons are from April to October.
 - There are also plans for the completion of the disc golf course in 2012.
- Mount Currie provides an outdoor basketball court and hockey boards/surface, rodeo grounds and playgrounds (2). The Band is currently planning a kids play park, a water park and seniors lawn bowling, however, all are subject to funding.
- Playing fields are also available throughout the Pemberton area:
 - Neither the Village nor the SLRD own land that accommodates the activities of baseball, softball or soccer. PVUS relies on an agreement with School District No. 48 with lands that provide three soccer pitches (former high school Site (1), new high school site (1)) and a baseball diamond (1))

- Mount Currie is currently upgrading the fields at Xit'olacw which will comprise of a junior soccer field and full size U18 FIFA soccer pitch surrounded by a 400 metre track (surfaced for races and training). A new dedicated softball field is also being built adjacent to Ullus.
- Other facilities more passive facilities located in the Village include a youth centre, nature centre, library, community garden, open spaces, trails and ancillary facilities.

2.2 Competitive Indoor Facilities

The competitive facilities consider those operations that provide either four season indoor recreation. The section has identified the amenities by community. These facilities have not been included in the inventory provided in section 2.1 of this report.

.1 Pemberton Area

School Board Facilities

As indicated in the inventory the school board offers 2 gymnasiums (one standard, one youth) and two playing fields for community use. A use agreement (when not being utilized by the schools) is being negotiated between the Board and PVUS.

Private Facilities

There are currently four (4) indoor recreation facilities operating in the Village of Pemberton

The following are small private studios offering specialized fitness products:

- Connection Pilates and Massage Spa Therapy
- Revolution Personal Training and Spinning
- Bananamay Bodyworks (Lindsay May)
- Tadasana Yoga

Horseback riding (equestrian) is also popular in the Pemberton area; however, any indoor facilities are typically private ventures and may not be affordable to area residents.

.2 Whistler

Whistler has significant public, not for profit and private recreational offerings within a 30-45 minute drive or 44-60 minute bus ride, as follows:

Public/Not for Profit Facilities

• Meadow Park Recreation Centre is a multipurpose facility that provides residents and visitors with a wide selection of services and amenities including a six-lane 25 metre pool, kids' pool, sauna, steam room and hot tub. The complex also houses an NHL size arena, three squash courts, weight room and a fitness studio. A variety of recreation programs are offered including fitness classes, aqua fitness, swimming lessons and public skating. For Whistler, north to Pemberton, Mount Currie and Area C; Meadow Park plays an important role in athlete rehabilitation and recovery from injuries with many professional therapists (physio, occupational and message) using the facility's amenities.

The Resort Municipality of Whistler has recently done a quick review of the use of the facility by the residents of Pemberton and the SLRD in 2011 and found the following information:

2011 Membership Report (shows individual passholders from VOP/SLRD)

- 273 individual passes
- 164 registrations for programs

It should be noted that it is difficult to do an exact breakdown of the Village and SLRD there are imperfections within the database information. A further breakdown of the membership report found that approximately 30% were from the SLRD, 3% from Mount Currie and 64% were from the Village. Note the SLRD would include Area C. Whistler Minor Hockey has indicated that there are 33 children in the Pemberton area that are part of their association. There is no available numbers on how many children would play ice sports if the arena was closer. The Whistler adult hockey leagues include 5 men's A division, 9 recreational, 8 old timer and 6 women's teams. There is a strong Pemberton presence in each of these leagues.

 Whistler Legacy Society's Athlete's Centre featuring a 4,000 square foot strength and conditioning gym, a 5,000 square foot gymnastics hall, recovery and regeneration rooms, change rooms with shower facilities, a testing room, rental offices and a 1300 sq. ft. multi-purpose room. The building is fully accessible, including features such as accessible washrooms/showers and an elevator enabling access to the 2nd floor. Canadian Sport Centre (CSC) Pacific, in partnership with the national network of Canadian Sport Centres and BC network of Pacific Sport Centres, delivers sport performance programs to help athletes and coaches win medals for Canada. Whistler is one of the CSC Pacific's three campuses where the organization works in support of our national and provincial sport partners to create a stronger system for the development of athletes, coaches, integrated support teams and sport performance facilities.

Private Facilities

- The Core provides an extensive array of recreational activities, featuring a huge climbing area, free weights, cardio equipment and two fitness studios for indoor cycling, yoga, circuit, zumba and many other classes.
- Crossfit Fitness Studio
- TAG Cycling Indoor Studio
- Bounce Gym trampolines
- Whistler Athletic Club gym
- Whistler Bike Park Air Dome is an 8,400 square foot covered indoor bike training facility with a huge foam pit and wooden ramps. The Air Dome offers jump progression from 2' high jump ramps to 26' Quarter Pipes with options for riders of all abilities. Dirt Jump, Slopestyle, Downhill and BMX bikes are all welcome on the ramps and in the foam pit.

2.3 Outdoor Recreation Options

When reviewing recreation facilities or activities in the Pemberton area it is also important to highlight that most of the community participate in organized and informal outdoor recreational experiences not within the existing parks and facilities inventory (Section 2.1). The Whistler/Pemberton Area is renowned for is outdoor recreational offerings (facilities in brackets), specifically:

Pemberton

Horseback Riding and Rodeo
Mountain biking
Two Golf Courses (One 27 hole, one 18 hole – each with driving ranges)
Hiking
Cross Country Skiing (Nairn)

Snowshoeing
Snowmobiling/ATV
Ski Touring
Paragliding
Motocross (Green River Speedway)
Hunting
Paddling (One Mile Lake)
Pemberton Wildlife Association and Range

Pemberton Skydiving Club

Pemberton Soaring Club

Whistler

Whistler Blackcomb Resort (Downhill Skiing)
Whistler Mountain Bike Park
3 Signature Golf Courses
Tennis (Whistler Tennis Club)
Watersports (five valley lakes)
Sliding Centre (bobsleigh and luge open for lessons)
Nordic Skiing (Lost Lake, Whistler Olympic Park)
Ski Jumping (Whistler Olympic Park)

PART 3: COMMUNITY PROFILE

3.1 Socio-Economic Characteristics

This section considers the socio-economic characteristics of residents in the Pemberton area. In particular, the age, birth/ mortality rates, labour force, mobility rates, household character and income. The characteristics have been listed initially by individual community boundaries (Village of Pemberton, Lil'wat and Area C), followed by a total for the Pemberton area. A few of the statistics were lacking for reserve areas in the Lil'wat Nation. The referenced census profiles are included in Appendix B.

Population and Age

In considering potential recreational amenities for the Pemberton Area, it is important to understand the overall number and age of the potential users. In the 2011 Canada Census the total area population comprising the Village, Mount Currie Band and Area C was 5,479 persons. The Village comprises 43 % of the area population followed by Area C at 33% and Lil'wat at 24%.

In terms of age composition Lil'wat has the youngest median age of 28.6 years, while the Village was 34.9 years and Area C significantly older at 40 years. This is further reinforced when comparing the percentage of populations either less than 15 years or 65 years and older. Lil'wat was 26.6% and 3.8% respectively, the Village was 20.6% and 2.7% respectively, and Area C 16.6% and 8.3%, respectively.

The general age distribution for the Pemberton Area in comparison with the Province of BC has the following characteristics:

- Young population with median ages for both the Village of Pemberton and Lil'wat significantly lower than the provincial average (34.9, 28.6 vs. 40.8, respectively)
- Very few seniors in relation to provincial average.
- Area C is more similar to the provincial average than the Village and Lil'wat (IR 6 only)

Birth and Death Rates

⇒ VCH sending for data

Labour Force

The statistics considered family and household after tax incomes. The median after tax incomes by family type in 2005 (in dollars) were as follows:

	Married	Common Law Couple	Lone Parent	All Families
	Couple			
Village	56,063	56,850	36,282	53,751
Area C	53,768	49,112	22,086	49,112
Lil'wat	37,888	21,728	17,120	26,795
BC	60,126	54,288	33,431	54,737

The median after tax incomes by households in 2005 (in dollars) were as follows:

	Couple with	Couple w/o	One	Other	All
	Children	Children	Person	Households	Households
Village	60,068	55,838	30,754	39,722	46,373
Area C	55,527	53,961	29,316	36,797	41,250
Lil'wat	36,992	28,352	6,608	28,864	28,608
ВС	68,639	55,748	24,987	43,242	46,472

The unemployment rates were as follows:

IR 6	23%
IR 10	26.7%
Village	3.5%
Area C	6.6%
Province	6%

Mobility

The population of the study area is relatively stable whereby the 2006 Census gives an indication of mobility in the census area, region, country and abroad.

1 Year Increments

- 89% and 97%, respectively of Mount Currie IR6 and IR10 lived in the same address a year ago
- Area C residents indicated that 88% lived at the same address a year ago
- Pemberton residents were a bit more mobile as only 74% lived at the same address a year ago

5 Year increments

- 78% and 91%, respectively of Mount Currie IR6 and IR10 lived in the same address five years ago
- Area C residents indicated that 88% lived at the same address a year ago
- Pemberton residents were much more mobile as only 32%% lived at the same address a year ago

Household Character

The household character considers average family size and type of living arrangement of the family or household in the 2006 Census considered the following:

Average Family Size

IR6	3.5 persons/family	
IR10	3.0 persons /family	
Village	2.8 persons/family	
Area C	2.9 persons/family	
Province	2.9 persons/family	

Family type

	IR6	IR10	Village	Area C	Total
Married Couple with Children	75	50	350	335	810
					(68%)
Common-Law Couple with	55	10	170	135	261
Children					(22%)
Lone Parent Family	75	30	70	40	115
					(10%)

Household Composition

	IR6	IR10	Village	Area C	Total
Households with Children	85	15	265	225	590 (30%)
Households without Children	2	20	250	245	517 (26%)
Single Households	25	20	275	240	560 (28%)
Other Households	80	15	145	80	320 (16%)

Place of Work

The place of work may be an important consideration when identifying a location for future recreation facilities. The 2010 Pemberton Census indicated that one person in every household works in Whistler. The statistics below also indicate a large amount of the labour force worked in a different Census subdivision such as Whistler.

	IR6	IR10	Village	Area C	Total
Worked at Home	10	10	140	190	300 (11%)
Worked Outside Canada	0	0	0	0	0
No fixed Workplace	70	10	280	315	395 (15%)
Worked in Census Subdivision	85	35	415	20	555 (22%)
Worked in Different Census Subdivision	70	10	645	645	1370 (51%)
Worked in Different Census Division	0	0	10	25	35 (1%)
Worked in Different Province	0	0	0	0	0

3.2 Recreation Groups and Interests

The following listing identifies existing community recreation and leisure groups:

Traditional Recreation Organizations Requiring Facilities

Pemberton Youth Soccer Association Sea to Sky Women's Soccer Association Little League Baseball Slo-Pitch Adult Softball Guides and Brownies

Other Recreation Organizations

Jack Rabbits Nordic Skiing
Pemberton Valley Trails Association
Pemberton Valley Snowmobile Club
Pemberton Wildlife Association
Pemberton Canoe Association
Green River Moto Cross and Track
Pemberton Flying Club
Pemberton Soaring Club

Leisure Activities

Pemberton Children's Choir Pemberton Seniors society Pemberton Arts Council Pemberton Young Life Pemberton Model Aircraft Club Stewardship Pemberton

3.3 Recreation Trends in Pemberton Area

Recreation is a dynamic business, whereby new innovations, sports or niche markets begin to drive community wants and desires. As already noted Pemberton has limited recreational facilities, yet the community and sporting associations have drawn on many resources to improve the amenities and/or compete at higher levels. As a rural mountain area, recreation has always focused on the outdoors both in the front and backcountry. Groups such as the Pemberton Valley Trails Association, Green River Motocross, Jackrabbits, Pemberton Wildlife Association, and the Canoe Club have developed high quality recreation/sport programs.

In addition, volunteers groups have dedicated time and in some cases worked with private businesses and local government to achieve senior government grant funding for facilities such as the bike pump park, skatepark, BMX, baseball and the nature centre. The Village has introduced a Community Partnership program to assist local groups in achieving their goals, as well as Area C Select Funds. Community Enhancement Funds also provide a small influx of money for community groups.

Pemberton has also promoted their outdoor recreational offerings to visitors that the community is a based camp and "The Adventure Starts Here" which in turn has become attractive to amenity migrants (living in the community but working elsewhere) setting up businesses where there is a high quality of life. There has also been interest in establishing an independent school, which likely would have needs similar to the local community when it comes to recreation facilities services.

CONCLUSION: RECREATION OBSERVATIONS

Any partnerships in developing recreation facilities need to have a governance structure that operates within the fiscal goals of the community and ensures transparency and accountability. Each government needs to feel that they are equal players in the decision making structure despite legislative differences. Community consultation and advisory/stakeholder groups must be part of any decision making process.

The cost of both capital construction and ongoing operating costs must be in line with what each of the partners are able to afford and yet must equally result in a fair contribution. Alternative, innovative yet proven funding options will be needed to ensure that the facility will be fiscally sustainable and, where possible, potential risks should be diverted to third party operators as may be the case with a P3 structure.

There is general support from each of the governments that a significant recreation facility such as an ice rink or swimming pool can only be realized through collaboration. Recreational facilities provide more opportunities for all ages in supporting healthy living and wellness.

There is a lack of indoor recreational facilities in the Pemberton area. The private and not for profit sector has not filled this need. There are many outdoor recreational activities offered in the Pemberton-Whistler area that provide world class experiences, however, the complement of classic indoor amenities is something that many families still seek.

The study area has a range of socio-economic indicators that should be recognized in the planning of new recreation facilities. In particular, Pemberton and area has a fairly young population with fewer elders/seniors than the provincial average but yet with incomes lower than the provincial average. The population in general stable, except Pemberton which from 2001- 2006 was going through significantly high population influx as Whistler boomed. Recreation facilities should acknowledge that Whistler is often a daily destination for employment for residents of the study area.

There are strong volunteer initiatives and associations supporting recreation and leisure activities and an appetite in the community to pursue innovative and less traditional approaches for the design, development and ongoing funding, provide there is public input and transparency in the decision making process.

APPENDIX A – RECREATION ASSET INVENTORY

PEMBERTON VALLEY RECREATIONAL ASSETS Facilities

	Facility Asset	Location	Status	Future Improvements
	Tennis Courts Public Washroom	Creekside Park	Active use of tennis, hard court play such as ball hockey Parking lot (4 cars)	 Higher profile as public facility Add hard court play installations such as hockey nets and/or basketball hoops. Improved pedestrian connection to Village.
TON	Public Washroom	Village Office/Pioneer Park	One co-ed washroom	
PEMBERTON	Community Kitchen and Storage Space	Signal Hill Elementary	Rarely used by community, full of school storage	Working on agreement to clarify use of the space by the community
OF PEN	Public Washroom	Underhill Park	Washrooms	Future plans to expand Underhill Park when adjacent lands develop (Lil'wat Properties)
AGE (Community Garden and Greenhouse (operated by Stewardship Pemberton)	One Mile Lake Park	Greenhouse, storage shed	
VILL	Boathouse (operated by Canoe Club but maintenance responsibilities not clear)	One Mile Lake Park	Storage facilities, deck	Village to have a licence of occupation or lease agreement to assign maintenance responsibilities to Canoe Club
	Nature Centre (operated and maintained by Stewardship Pemberton)	One Mile Lake Park	Washroom, meeting room	No final occupancy due to no potable water source
	Youth Centre	Cottonwood	Communal Room	
PVUS	Community Centre	Cottonwood	Grand Hall, Meeting Rooms, Yoga Room, Fitness Centre, Showers, Library and Community Kitchen	Needs exterior improvements finished Significant maintenance requirements
	Waterpark	Cottonwood	Operated and maintained by PVUS	
0. 48	High School Gym	Aspen Boulevard	School Board but community hours booked by Rec Services (PVUS)	
SD N	Signal Hill Gym	Portage Road	School Board but community hours booked by Rec Services (PVUS)	
8	Ullus Community Complex	Mt. Currie	Gym, multipurpose room exercise room kitchen	
MCB	Xit'olacw Community School	Xit'olacw	Gym, kitchen multipurpose room	
	Youth Centre			Proposed

PEMBERTON VALLEY RECREATIONAL ASSETS Parks

	PARK Community Parks:	TYPE/AMENITIES	SIZE	STATUS
	One Mile Lake	Community Park: beach, trails, Nature Centre, playground, lake	71.4 acres/28.96 hectares	Servicing, beach improvements, trail enhancements, comprehensive sign plan, disc golf
	Pioneer Park	Community Park: gazebo, Japanese garden,	0.5 acres	Children play structures, expansion with downtown plan
	Neighbourhood Parks:			
	Creekside Park	Tennis Courts and Washroom	3.82 acres/1.55 hectares	Signage
NO	Zurcher Park	Playground, picnic, open space	0.75 acres/0.30 hectares	Upgraded equipment
VILLAGE OF PEMBERTON	Underhill Park	Playground, washroom	0.32 acres/0.13 hectares	Expansion when adjacent lands develop
OF PEI	Alder Street Park	Playground, heavily treed	0.884 acres/0.36 hectares	Thin vegetation, open to street, future expansion to north
LAGE	Foughburg Park	Open space, picnic area, Art Barn	0.32 acres/0.13 hectares	
VIL	Airport Park	Picnic Tables, open area	n/a	Continuing to enhance for picnic use
	Al Staehli Park	Playground, open area	n/a	Dedication to Village, landscaping
	Special Use Parks:			
	Frontier Street Linear Park	Parking and event area	0.53 acres	Downtown enhancement
	Pemberton Museum Park	Museum		Water connection
	Pemberton Plateau	Undeveloped open space	n/a	Future enhancements
	Bike Park	BMX and pump park, picnic area		Upgrade BMX, winter skills, landscaping, BMX gate
	Skateboard Park	Bowl and ramps, picnic area		Landscaping
	Arn Canal & Pemberton Creek	Open Space	n/a	Secure right of ways
	Playfields and Playgrounds:			
	Old Community Centre Fields	Open area, sledding hill, waterpark	n/a	Upgrade and secure use with School Board
NO. 48	Signal Hill Elementary Fields	Baseball diamond, all purpose field, playgrounds	n/a	Irrigation of playing fields and open areas
SD NO.	Pemberton High School Field	Soccer field	n/a	Upgrade field

VUS	Community Centre	Open area, playground and water park		
PV	Birken Community Centre	Community space		Completed 2012
	Mount Currie Soccer Fields		2.3 ha	Floods in spring
	Outdoor Basketball Court	300 m2 court		
MCB	Xit'olacw School Field and Playground	Backstop,infield, and grass outfield 0.6 ha playground		In poor conditions
	Outdoor Hockey Rink	Full size boards with asphalt surface		In need of repair
	Rodeo Grounds	Stage, rodeo and bleachers		

z	BC Rail and Tiyata Development	Community park on creek, community garden, neighbourhood park and opens spaces	7 acres	
PEMBERTON	Elementary School	3 natural open space areas, neighbourhood park, and elementary school field	20.6 ha	
OF	WWTP	Open Space		Making application for park to Crown
AGE	Disc Golf	9-12 holes		One Mile Lake Park/BCH lines
VILL	Biro-Sabre	Multi-use facilities, playing fields and parks		Hillside Plan, currently in ALR
	Downtown Greenway	Public open spaces, parks and plazas		As per Downtown Enhancement Plan
	Mount Currie Soccer and Baseball Fields	Small soccer field and baseball field with children's playground		Summer 2013
MCB	Xit'olacw Soccer Field and Running Track	Youth soccer field with 300 m running rack		Summer 2012

Notes

1. 2011 and 2006 population

Statistics Canada is committed to protect the privacy of all Canadians and the confidentiality of the data they provide to us. As part of this commitment, some population counts of geographic areas are adjusted in order to ensure confidentiality.

Counts of the total population are rounded to a base of 5 for any dissemination block having a population of less than 15. Population counts for all standard geographic areas above the dissemination block level are derived by summing the adjusted dissemination block counts. The adjustment of dissemination block counts is controlled to ensure that the population counts for dissemination areas will always be within 5 of the actual values. The adjustment has no impact on the population counts of census divisions and large census subdivisions.

2. Total private dwellings

A separate set of living quarters designed for or converted for human habitation in which a person or group of persons reside or could reside. In addition, a private dwelling must have a source of heat or power and must be an enclosed space that provides shelter from the elements, as evidenced by complete and enclosed walls and roof, and by doors and windows that provide protection from wind, rain and snow.

3. Private dwellings occupied by usual residents

A separate set of living quarters which has a private entrance either directly from outside or from a common hall, lobby, vestibule or stairway leading to the outside, and in which a person or a group of persons live permanently.

4. Age

Refers to the age at last birthday before the reference date, that is, before May 10, 2011.

Refer to the Census Dictionary for more information.

5. Median age

The median age is an age 'x', such that exactly one half of the population is older than 'x' and the other half is younger than 'x'.

6. Total population 15 years and over by marital status

Refers to the marital status of the person, taking into account his/her common-law status. For more information, refer to the <u>Census Dictionary: Marital status</u>

7. Total number of census families in private households

Census family - Refers to a married couple (with or without children), a common-law couple (with or without children) or a lone parent family. For more information, refer to the <u>Census Dictionary: Census family</u>.

8. Total number of census families in private households

Census family structure - Refers to the classification of census families into married couples (with or without children of either and/or both spouses), common-law couples (with or without children of either and/or both partners), and lone-parent families by sex of parent. A couple may be of opposite or same sex. A couple with children may be further classified as either an intact family or stepfamily, and stepfamilies may, in turn, be classified as simple or complex. Children in a census family include grandchildren living with their grandparent(s) but with no parents present.

9. Living with relatives

Non-relatives may be present.

10. Total number of private households by household type

Refers to the basic division of private households into family and non-family households. Family household

refers to a household that contains at least one census family, that is, a married couple with or without children, or a couple living common-law with or without children, or a lone parent living with one or more children (lone-parent family). One-family household refers to a single census family (with or without other persons) that occupies a private dwelling. Multiple-family household refers to a household in which two or more census families (with or without additional persons) occupy the same private dwelling. Family households may also be divided based on the presence of persons not in a census family.

Non-family household refers to either one person living alone in a private dwelling or to a group of two or more people who share a private dwelling, but who do not constitute a census family.

11. One-family only households

Refers to households that consist solely of one census family without additional persons.

12. Couple family households

Refers to households with opposite-sex or same-sex couples.

13. Other family households

Refers to one-census family households with additional persons and to multiple-census family households, with or without additional persons.

14. Couple family households

Refers to households with opposite-sex or same-sex couples.

Total number of occupied private dwellings by structural type of dwelling

Structural type of dwelling - Characteristics that define a dwelling's structure, for example, the characteristics of a single-detached house, a semi-detached house, a row house, or an apartment or flat in a duplex. Refers to the structural characteristics and/or dwelling configuration, that is, whether the dwelling is a single-detached house, an apartment in a high-rise building, a row house, a mobile home, etc.

16. Movable dwelling

Includes mobile homes and other movable dwellings such as houseboats and railroad cars.

17. Other dwelling

The category 'Other dwelling' is a subtotal of the following categories: semi-detached house, row house, apartment or flat in a duplex, apartment in a building that has fewer than five storeys and other single-attached house.

18. Total number of private households by household size

Household, private - Person or group of persons occupying the same dwelling. Refers to a person or a group of persons (other than foreign residents) who occupy a private dwelling and do not have a usual place of residence elsewhere in Canada.

Household size - Number of persons occupying a private dwelling. Refers to the number of usual residents in a private household.

Symbols

A adjusted figure due to boundary change

Users wishing to compare 2011 Census data with those of other censuses should then take into account that the boundaries of geographic areas may change from one census to another. In order to facilitate comparison, the 2006 Census counts are adjusted as needed to take into account boundary changes between the 2006 and 2011 censuses. The 2006 counts that were adjusted are identified by the letter 'A.' The letter 'A' may also refer to corrections to the 2006 counts; however, most of these are the result of boundary changes. This symbol is also used to identify areas that have been created since 2006, such as newly incorporated municipalities (census subdivisions) and new designated places (DPLs).

E use with caution

After the release of the 2006 or 2011 Census population and dwelling counts, errors are occasionally uncovered in the data. It is not possible to make changes to the 2006 or 2011 Census data presented in these tables.

Refer to the <u>2006 population and dwelling count amendments</u> or the <u>2011 population and dwelling count</u> amendments for further information.

X area and data suppression

In addition to random rounding, area and data suppression has been adopted to further protect the confidentiality of individual respondents' personal information.

Area and data suppression results in the deletion of all information for geographic areas with populations below a specified size. For example, areas with a population of less than 40 persons are suppressed. If the community searched has a population of less than 40 persons, only the total population counts will be available.

Geographic area suppression lists show areas where data are suppressed.

† excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements

Excludes census data for one or more incompletely enumerated Indian reserves or Indian settlements (For further information, see the 'Notes.')

\P incompletely enumerated Indian Reserve or Indian settlement(For further information, see the 'Notes.')

Refer to a complete list of these geographic areas.

.. not available for a specific reference period

Data quality index

Data quality index showing a global non response rate higher than or equal to 25% (suppressed).

Geographic area suppression show areas where data are suppressed.

Incompletely enumerated Indian reserve and Indian settlement

There were 13 Indian reserves and Indian settlements where enumeration was not possible as a result of forest fires in Northern Ontario at the time of census collection. Collection for these communities was done at a later time. While the data are not included in the 2011 Census tabulations, it is expected that separate special tables showing data for these communities will be made available at a later date, subject to data quality evaluation.

Refer to a complete list of these geographic areas.

··· not applicable

A possible reason for the use of the three dots (...) symbol is:

• A value that cannot be calculated such as a percentage change where the denominator is zero.
